## DOMESTIC TRANSPORT

**With over 100 years of combined experience in the transport of goods throughout the world, the team at UKI prides itself on dedication to customer service. We provide a fast, efficient, cost effective solution to meet our client's needs, ensuring delivery on time every time.**

Clients operate in multiple industry sectors; food, paper and packaging, beverage, automotive and construction.

We carry over 750 separate consignments every day across the United Kingdom. All of which are carried door to door safely and efficiently utilising a modern fleet of vehicles, from small vans to 44 tonne articulated vehicles capable of carrying loads in excess of 29,000kgs.

## EUROPEAN TRANSPORT

### Services

**Spain**

**Germany**

**France**

**Benelux**

**Italy**

**Poland**

**Portugal**

**Eastern Europe**

**Including all Baltic States**

As with our domestic services, our clients operate across multi-industry sectors; food, paper, packaging, beverage, automotive and construction, and because of this, we believe that it is vital that we tailor our services to meet the specific requirements of every single client.

Our multi-lingual employees work together with local agents to ensure the smooth movement of goods across Europe. This helps under-pin our promise to guarantee that all consignments are delivered direct to the client's door securely, efficiently, economically and professionally.

## **AIR FREIGHT, DEEP SEA AND EXPRESS**

In conjunction with our dedicated domestic and European road services, UKI provides a reliable and cost effective freight shipping solution for all global services, including express transport, air freight and a cost reducing container service for your consignments that are not as time sensitive.

UKI are located close to both Manchester and Liverpool airports and just 12 miles away from the major port of Liverpool - because of this UKI are able to offer huge cost savings. In addition, our geographical location enables us to offer express services to numerous sectors including the Aviation industry, we are frequently called upon to move specialist parts to AOG 'Aircraft on the ground' - this helps ensure the reduction of aircraft downtime.

Global services need highly trained multi-lingual specialists to ensure a smooth and effective delivery every time.

At UKI all of our team are fully conversant with letters of credit, bills of lading and foreign customs requirements. In addition, we are here to provide general advice and guidance on exports and most importantly getting paid for your orders.

### **What do we offer?**

- Consolidation to all countries
- Global door to door services
- Customs clearance
- Marine cargo insurance
- Export packing
- Complete LCL/FCL cargo service

## WAREHOUSING

UKI have over 100,000 sq ft of warehousing facilities which are modern, secure and food grade quality assured. CCTV, motion sensors and electronic access control throughout the building makes it the perfect location to store all product types from food, beverages or even electrical goods. Additionally, we have a 3000sq ft walk in safe, ideal for the safe storage of small high value products or important documents such as legal or accountancy documentation.

UKI can offer a full range of flexible storage options, including pallet racking, block store, stock rotation, container de-vanning, break bulk, order assembly and distribution for both pallets and full loads. All of this is fully supported by a bespoke warehouse management system that has total flexibility to match individual client needs.

The WMS controls all movement of goods into and out of our warehouse. The advanced functionality means that we can provide multiple levels of product identification e.g. product name and description, purchase order and batch numbers, best before dates on individual cases or pallets.
